Edward R. Jagels  
District Attorney's Office  
1215 Truxton Avenue  
Bakersfield, CA 93301

Dear Sir:

As a threshold matter I was an un-represented injured worker with a workers compensation claim pending in Bakersfield, case no. **BAK 112784**. My present understanding is that there are NO (repeat NO) active claims pending before administrative law judge Robert K. Norton concerning me.

Nevertheless, counsel for the defense (Dennis J. Hershewe, esq.) has requested orders from said administrative judge to compel me to attend psychological interrogation interviews for an unknown purpose.

This is the latest pathetic attempt to scrape the barrel and sling mud by Mr. Hershewe, who apparently is without legal authority to demand such orders (with no active case pending). Meanwhile, the sexual preferences of this judge may be an issue that Mr. Hershewe intends to exploit to coerce preferential treatment.

Although Judge Norton may be the innocent victim in this scheme, I can not allow my professional reputation to be tainted by tactics such as these. Therefore, I demand you open an investigation into the rumored use of minor male prostitutes to compromise certain state and county employees, like Judge Norton.

As you know, Judge Norton is rumored to be a Republican.

Sincerely,

Barbara Clark
